

It is perhaps easy to take our ears for granted, often not paying them too much attention until a hearing problem begins to affect our well-being.

CLEAR HEARING SOLUTION

For audiologist Marina Storina, founder of Clear Hearing Solution and Director of Well-being, Hearing and Balance Clinic, treating hearing issues goes far beyond understanding the mechanics of the ear and firmly believes our hearing gives us an emotional connection to the world and the people around us as well as improving our quality of life and the lives of others.

Moscow-born Marina studied at Swansea University where she earned a BSc in Audiology and completed further MSc training in treating advanced balance disorder and auditory rehabilitation. After working in the NHS for over fourteen years, she decided to start her own practice.

Clear Hearing Solution moved into Goodsheds on the Barry waterfront in September 2020 and has developed a loyal client base throughout the Vale of Glamorgan and beyond. Marina offers a range of treatments including micro-suction for infections and blockages, hearing aids, balance rehabilitation, tinnitus as well as specialist glue ear treatment for children.

For Marina, helping patients accept hearing loss is an important part of the relationship between audiologist and patient. A pleasing aspect of the work at the clinic is the number of extremely positive comments from patients praising the care and attention they received during their consultations and procedures.

TESTIMONIALS

What patients say...

"Marina demonstrated excellent knowledge and understanding of my issues, which made me feel relaxed and confident I was in safe hands."

"I took my 13 year old son to Marina for micro-suction. She was amazing with him and made him feel at ease."

"Best £65 I've ever spent. I would definitely recommend her."

Charity project plans...

Meanwhile, Clear Hearing Solution is about to embark on an interesting new development as Marina is in the process of planning to fund a charity project designed to provide free hearing care for children. It's going to prove an interesting time for the company so please watch this space.
